

Pt. 945

48 CFR Ch. 9 (10–1–05 Edition)

(ii) Accept the principle of the audit recommendation but reject the cost questioned amount.

(iii) Reject audit findings and recommendations.

(3) When implementing the accepted course of action, the contracting officer shall—

(i) Hold discussions with the auditor and contractor as appropriate.

(ii) Issue a notice in writing advising the contractor of the government's intent to disallow the cost questioned, if the contracting officer agrees with the auditor concerning the questioned costs.

(iii) Negotiate a mutual settlement of questioned costs if they are agreed with in principle but there is a difference of opinion as to a proper amount.

(iv) Negotiate a mutual settlement of questioned costs if the auditor recommendations are acceptable to the contracting officer but the contractor does not accept the finding or disallowance.

(v) Issue a final decision of the contracting officer disallowing the questionable cost where differences cannot be resolved, advising of the contractor's right to appeal the decision, and advising the procedure to be followed if it is decided to make such an appeal.

(vi) Initiate immediate recoupment actions for all disallowed cost owed the government by:

(A) Requesting the contractor to provide a credit adjustment (offset) against amounts billed the government on the next or future invoice(s) if such shall be submitted under a contract for which the disallowed cost applies.

(B) Deducting (offset) the disallowed cost from the next or future invoice(s) submitted under the contract; if the contractor provides no adjustment under the contract for which the disallowed cost applies; provided such reduction is deemed appropriate.

(C) Advising the contractor that a refund shall be directly payable to the government in situations where there are insufficient payments owed by the government to effect recovery via (A) or (B) above or an offset is otherwise inappropriate.

(vii) Promptly notify the appropriate finance office of refunds directly pay-

able to the government to ensure proper billing and follow-up action for collection.

Department of Energy

945.303-1

945.000 Scope of part.

This part and FAR Part 45 are not applicable to the management of property by operating and management contractors. In addition, the policies and procedures contained in FAR Part 45 governing the management, control, reporting, and disposal of special test equipment and special tooling are not followed by the DOE.

Subpart 945.1—General

945.101 Definitions.

Personal property, as used in this part, means property of any kind or interest therein, except real property; records of the Federal Government; and nuclear and special source materials, atomic weapons, and by-product materials.

Capital equipment, as used in this part, means personal property items having a unit acquisition cost of \$5,000 or more and an anticipated service life in excess of two years, regardless of type of funding, and having the potential for maintaining their integrity as capital items; i.e., not expendable due to use.

[54 FR 27647, June 30, 1989]

945.102-70 Reporting of contractor-held property.

Within 30 days after the end of each fiscal year, the Head of the Contracting Activity shall report the following information to the Director, Office of Property Management, within the Headquarters procurement organization.

(a) Name and address of each contractor with DOE property in their possession, or in the possession of their subcontractors (do not include grantees, cooperative agreements, inter-agency agreements, or agreements with state or local governments).

(b) Contract number of each DOE contract with Government property.

(c) Date contractor's property management system was approved and by whom (DOE office, Defense Contract Management Command, or the Office of Naval Research).

(d) Date of most current appraisal of contractor's property management system, who conducted the appraisal, and

status of the system (satisfactory or unsatisfactory).

(e) Total dollar value of DOE property as reported on last semiannual asset report (including date of report), for each DOE contract administered by the contracting activity.

[49 FR 12032, Mar. 28, 1984, as amended at 59 FR 9107, Feb. 25, 1994]

945.102-71 Maintenance of records.

The contracting activity shall maintain records of approvals and reviews of contractors' property management systems, the dollar value of DOE property as reported on the most recent semiannual financial report, and records on property administration delegations to other Government agencies.

Subpart 945.3—Providing Government Property to Contractors

945.303-1 Policy.

The DOE has established specific policies concerning special nuclear material requirements needed under DOE contracts for fabricating end items using special nuclear material, and for conversion or scrap recovery of special nuclear material. *Special nuclear material* means uranium enriched in the isotopes U233, and U235, and/or plutonium other than PU238. The policies to be followed are:

(a) Special nuclear material will be furnished by the DOE for fixed-price contracts and subcontracts, at any tier, which call for the production of special nuclear products, including fabrication and conversion, for Government use. (The contractor or subcontractor must have the appropriate license or licenses to receive the special nuclear material. The Nuclear Regulatory Commission is the licensing agency.)

(b) Contracts and subcontracts for fabrication of end items using special nuclear material generally shall be of the fixed-price type. Cost-type contracts or subcontracts for fabrication shall be used only with the approval of the Head of the Contracting Activity. This approval authority shall not be further delegated.

(c) Contracts and subcontracts for conversion or scrap recovery of special
